

PE and Sport Premium Funding Review of Spending 2014-15

PE and Sport Premium funding is based on the number of pupils in years 1 to 6.

PE and Sport Premium Funding Review of Spending 2014-15	
Total amount of PE and sport Premium funding received	£3,448.00
Total amount of funding	£3,448.00
Priority for spending:	
1) Improve the quality and consistency of provision for sport and PE.	
2) Enable access to intra schools competitive sports events.	
3) Increase the opportunities for active play.	

Target	Impact	Expenditure
Ensure full breadth of curriculum is taught through use of P.E specialist teaching – for KS2 pupils.	This enabled pupils to be taught by sport specialists, ensuring elements of the P.E curriculum were taught throughout the year to a good standard for all key stage two pupils.	£2,000.00
Improve the quality of PE teaching to at least good	Working alongside P.E specialists for a block of 6-8 weeks, staff, new to the school during 2014-15, improved their confidence and subject knowledge in their own teaching of sport and PE. Observations of teaching demonstrated how pupils were kept active at all times throughout PE lessons by the development of strategies used. Observations judged the quality of PE lessons as good.	£1,000.00
Improved resources for PE and sport	P.E equipment was replenished and new equipment was available for P.E lessons. New equipment that we did not previously have such as mini gold, indoor croquet and lacrosse are now available for use.	£300.00
Increase the opportunities for pupils to take part in competitive sports – KS2*	Increased number of pupils have had the opportunity to take part in competitive sports, both inter and intra school. This has also impacted	£50.00

(*see below for more detail of the competitions pupils took part in).	on levels of pupils' engagement and attendance as they were motivated to come to school to take part.	
Increase the activity levels of pupils during play/lunch times	A wider range of high quality resources were purchased and available for children at lunch time and play times. Y5/6 children were trained up to be playground leaders on the junior playground. During the summer term, the playground leaders also worked on the infant playground with KS1. This led to an increased number of pupils active during play times.	£100.00

***Local Competitions:**

Hockey: Year 6 came third in a hockey tournament against 10 teams. The team came second in their league. Having the specialist hockey coaches for two consecutive years meant that the children had specialist training before taking part in the competition. The coaches mainly worked on positioning and set pieces.

Cross country: Year 3-Year 6 took part in a cross country competition where our overall average score increased on the previous year. For the second year running, prior to the event, the children worked with the local secondary school P.E specialist coaches and their teachers on improving endurance and understanding pacing.

Tug of war Athletics: Year 5 came second earning a silver medal and Year 6 came third earning a bronze medal. Prior to the event, children had worked with an Athletics coach on working together to pull in Tug of war.

Athletics: Year 5 and Year 6 took part in an Athletics competition at the Athletics club. We took an increased number of children this year. Prior to the events the children had worked with the local secondary school, specialist P.E coaches and their teachers to refine their skills in these areas. Overall, Year 6 ranked the same as the previous year coming 5th out of 9 and Year 5 improved their previous overall ranking and came 7th.

For the first time, Year 5 and Year 6 classes held an intra competition at the end of their unit of learning. They participated in a class rounder's tournament. All children were involved in the competition from across the phase.
